Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr. Wolf proposes to further amend claim 1 to include limitations of "detecting the absence of real-time traffic on said link; and an expiration of a timer in a predetermined interval T before disabling fragmentation on said link in response to the detection of the absence of real-time traffic on said link" and claim 14 to include limitations of "detecting the absence of real-time traffic on said link and expiration of a timer; then dynamically adjusting the FRAG\_SIZE value on the link over time so long as no real-time traffic is detected on the link". Mr. Wolf urges Examiner to agree that the proposed limitations discussed above are not taught by Chui reference. Examiner advises Mr. Wolf to respond to the Office Action and to further amend the claims to incorporate the proposed limitations. Upon receiving the response, everything will be considered and an updated search will be conducted. No agreement was reached.
